If his initial experiment proves a success Mr. Hoffman says he may decide to extend its benefits to others, though he is by no means sure he wants to spend all of his money that way.

I feel that my version is as correct as anybody elses. The fact that other people do not know these details of his career makes me believe that I know them better. For instance, I seem to remember all the details of the poaching affair and of Shakespeare's meeting with Elizabeth.

For example, I think Justice Shallow is based on the justice before whom Sir Thomas Lucy haled young Will for poaching on his preserves. I have developed my play as if I had been present at the time the events happened and I really think I was present. And this is why! Only the very finest food materials which scientific knowledge and the opportunity large purchases can provide are used in making WARD'S BREAD. The dough mixing room temperature is automatically regulated and the oven heat controlled. Then the WARD patented process reduces time of fermentation, and by the addition of proper quantities of beneficial lime salts corrects and modifies the water used to bring it to the best standard for bread making, thereby producing a loaf of bread better in quality, taste and texture, and most important of all, of greater nutritive

# The High Cost of Dancing ? at the Dancing Carnival

A few nights ago a young man who had just finished dancing approached the manager of the dancing carnival and said: "Allow me to congratulate you. You certainly know how to get the money. came here with three dollars. It cost me twenty-five cents to get in, ten cents for a hat check and twenty-five cents for my first instruction card. After dancing a while I bought refreshments; these cos forty cents. I expressed my desire to dance again, and it cost me forty-five cents for three little green dance checks, with an instruction card. There were more refreshments. I found at last that I had twenty-five cents left, and the only reason I saved this was that I thought you would charge twenty-five cents to ride down in the
